Keeping Your Room Clean

A clean bedroom is good for you!

If you leave your toys out, they might get lost or taken by an older sister or brother. When you put your toys away, you always know where they are.

If you leave your books on the floor, you might trip on them or the books might get ruined. Keeping your books on a shelf keeps you safe and your books safe too.

If you do not put your clothes away, you will not be able to find that favorite shirt you want to wear. Putting your clothes away helps you keep track of them so you always know where to find your favorite items.

How do you keep your room clean?
