## Student Name:

## Multimedia Project Planning

**Directions:** Select the answers that apply to you below. You may select more than one. Then, fill out the open ended questions.

1. What tools do you have access to (at home or at school)?

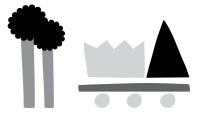

video camera
digital camera
audio recorder
computer with a built-in microphone or a headset

2. What programs do you have access to (at home or at school)?

video editing software (like iMovie)
photo editing software
audio recording software
presentation software (like PowerPoint)
animation software

3. What skills do you have that will help you create multimedia?

photography
video editing or production
voice recording
creating slideshow presentation
creating animation

4. Do 1	you know an	yone who d	could teach	you multimedia	skills?	Who?	Which sk	kills?
---------	-------------	------------	-------------	----------------	---------	------	----------	--------

5. Look at the tools you have available and the skills you have or can learn quickly. Then think about what would make your story work as a multimedia presentation. Write down some ideas presenting your story as a multimedia presentation.

6. Now list the equipment and materials you would need to create your multimedia presentation. Also, list any "assets" you'll need, such as photos or sound effects.

7. Please complete your multimedia project and then turn in your project and this worksheet to your teacher. If you have any questions, you can ask them below.
