Name: _____ Date: _____

Describe and Match
Describe shapes by their sides and angles.

Logan is in Vancouver! He found shapes all across the city. Can you help him describe them? Count and write the number of sides. Check the box for the descriptions that apply to the shape. Then draw a line from the shape to its name
Example:

4
sides

This shape has:

- ☐ 4 equal sides
- ☑ 4 right angles
- ☑ 2 sets of equal sides
- ☐ 1 angle greater than 90°
- ☐ 1 set of equal sides
- ☐ 3 angles less than 90°

rectangle

_____ sides
