Reading Line Graphs

Use this line graph to answer the questions below.

Kayla is playing soccer for her school. She makes a line graph to show how much time she spends at practice during the week.

1. How much time did she spend at practice on Friday?

_____ hours

2. How much time did she spend at practice on Monday?

_____ hours

3. How much time did she spend at practice on Thursday?

_____ hours

4. On which day did she spend the MOST time at practice?

5. On which TWO days did she spend the same amount of time at practice?

6. On which day did she spend 1 hour at practice?

7. In your own words, describe what this line graph says about how much time Kayla spent at practice on Wednesday.
