

Name: _____ Date: _____

Color and Multiply!

Use what you know about multiplying with number lines to create multiplication sentences.

Look at the number lines. Find the one that shows correct jumping and totals. Lightly color it in with a crayon. Use the correct number line to write and solve a multiplication sentence.

Example:

3 x 3 = 9

1.

_____ x _____ = _____

2.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

3.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

4.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

5. Try it Out! Use the multiplication sentence to find the number of jumps. Draw the jumps with your crayon on the number line and circle the answer.

$$6 \times 10 = 60$$
