## Draw a Picture!

Read each multiplication word problem. Write an equation and find the product by drawing a picture.

**Example:** Solve this question by drawing a picture.

$$6 \times 6 = 36$$

1. An ostrich picks 8 leaves off 6 different trees. How many leaves does the ostrich pick in total?

2. 10 dolphins each jump through 10 hoops. How many jumps do the dolphins do altogether?

3. A rabbit digs 9 holes every day for 8 days. How many holes does it dig in total?

4. 7 lions each have 6 toy balls. How many toy balls do the lions have altogether?

5. 8 zookeepers each hold 10 birds. How many birds do they hold in total?
