Student Name: _____

 Practice Checking Your Division Problems

Directions: Use multiplication to check each of the answers to the following problems, to see if they are correct. If the quotient is correct, write "correct" on the line. If it is not, then do the division problem and ind the correct quotient. Show all of your work.

1)

$$\begin{array}{r} 89 \text{ R}1 \\ 7 \overline{)624} \end{array}$$

Correct

_____

2)

$$\begin{array}{r} 25 \text{ R}3 \\ 6 \overline{)1234} \end{array}$$

Correct answer is 205 R4

_____

3)

$$\begin{array}{r} 121 \\ 9 \overline{)1092} \end{array}$$

Correct answer is 121 R3

_____

4)

$$\begin{array}{r} 123 \\ 5 \overline{)615} \end{array}$$

Correct

_____

Be sure to check all of your answers and look for mistakes!

Practice Checking Your Division Problems

Directions: Use multiplication to check each of the answers to the following problems, to see if they are correct. If the quotient is correct, write "correct" on the line. If it is not, then do the division problem and ind the correct quotient. Show all of your work.

5)
$$3 \overline{\smash{)}2961} = 987$$

6)
$$8 \overline{\smash{)}5599} = 699 \text{ R5}$$

Correct

Correct answer is 699 R7

_____

_____
