

Math 5

Finding Volume Assignment

- 1) In your own words describe how you would find the volume of a figure using unit cubes?

- 2) Why is volume calculated in units cubed?

Figure 1

- 3) Find the volume of figure 1.

Figure 2

- 4) Find the volume of figure 2.

- 5) Find the volume of figure 3.

Figure 3

6) In your own words explain how to find the volume of a box using the formula $\text{Volume} = \text{length} \times \text{width} \times \text{height}$.

7) Explain how the following two formulas are the same:

$$\text{Volume} = b \times h$$

$$\text{Volume} = l \times w \times h$$

Figure 1

8) Find the volume of figure 1 using the volume formula. Make sure to identify length, width and height.

Figure 2

9) Find the volume of figure 2 using the volume formula. Make sure to identify length, width and height.

Figure 3

10) Find the volume of figure 3 using the volume formula. Make sure to identify length, width and height.
