

Math 5

- 4) Draw a model of $\frac{1}{3} \div 2$.
- 5) Draw a model of $\frac{1}{3} \times \frac{1}{2}$.
- 6) Explain how the models in questions 4 and 5 are the same.
- 7) How is multiplying by a fraction ($\frac{1}{2} \times \frac{1}{4}$) and dividing by a whole number ($\frac{1}{2} \div 4$) related?
