

Candy Counting

Scene	Description	Narration
1	We see the roof of a candy factory, and tilt down to a factory door, with a conveyer belt leading to a delivery truck. A box rests on the conveyer belt. To the side is Jonah, a candy maker.	Jonas works at the candy factory, and today he is loading up the boxes to send to children all over the world. He has to count each piece of candy, then write the number of pieces on the outside of the box. Can you help Jonas count each different kind of candy?
2	11 chocolate bars come out of the factory door.	How many chocolate bars are ready to go into this box?
3	The chocolate bars go into the box one at a time, and the number "11" appears on the side of the box.	Let's count them up: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11. Jonas will put an 11 on the side of this box.
5	18 starlight mints come out of the factory.	How many mints will ship in this box?
6	The mints go into the box one by one as the candies are counted. The number 18 appears on the box.	Time to count! 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18. Let's write an 18 on the side of this box.
7	20 different colored pieces of bubblegum come out of the factory.	How many pieces of gum are ready to go in this shipment?
8	The gum goes into the box one by one as the candies are counted. The number 20 appears on the box.	1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20. We have 20 pieces of gum.
9	14 different colored jelly beans come out of the factory.	Here's the last batch of candy for today. How many of these jelly beans will go in this shipment?
10	The number 14 appears on the side of the box. An extra jellybean appears. Jonah eats the extra jelly bean.	1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14. Let's write 14 on this box and get it ready to go. Oh look, one extra! Well, we already packed the box... You know what to do, Jonah.
