

# Main Lesson Book: Cloud Formation Assignment

- In the box below, draw an example of each type of cloud formation. Label each example.
- Create a "Cloud Chart" on the next page. List the cloud formations you see for a week.

Name: \_\_\_\_\_

1. Look up at the sky every day this week. Observe the cloud formations. List your cloud formations on the chart below. Remember, you can have more than one type of cloud in the sky in a day. Glue a picture of these clouds into the box.

# Weekly Cloud Journal

Day	Cloud Type/Weather (rain, sunny, gray, snow)	Picture

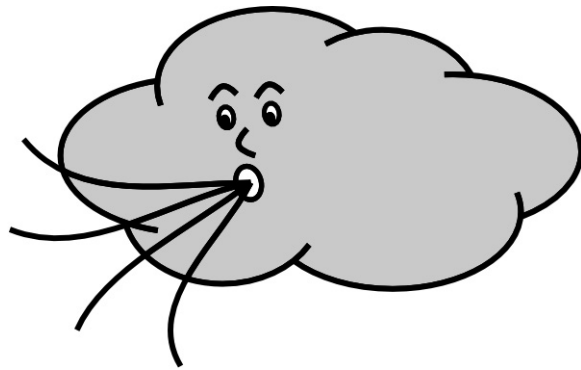

Continue on the following page.

2. On the chart below continue recording the wind direction, the temperature, and the time the sun sets each day this week.

## Weather Chart

Wind Direction	Temperature	Sun Setting

3. Recreate the cloud formations you see using cotton and glue and glue them in the box below. ↴
