

SCIENCE

Migration

Name: _____ Date: _____

Directions:

Draw an animal migrating. Then, fill in the blanks.
Finally, match animals with how they migrate.

1. Draw your favorite migrating animal. Do not forget to include its habitat and how it meets its needs.

A large, empty rectangular box with a blue border, intended for a student to draw a migrating animal and its habitat.

2. Use the words in the box to complete the sentences.

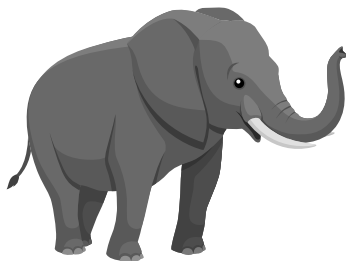

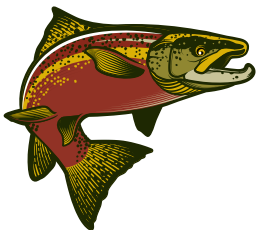

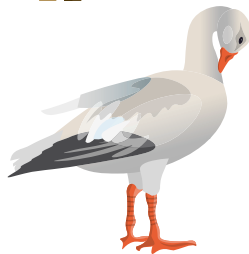

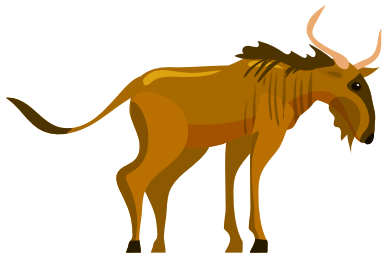

food

babies

seasons

Animals migrate for three reasons. When _____ change,
many birds fly south. When animals cannot find enough
_____ they might migrate. Some animals even migrate
to have _____.

3. Draw a line from the animal on the left to match how it migrates on the right. You can match to each type of migration more than once.

AIR

WATER
