

SCIENCE

Patterns and the Moon

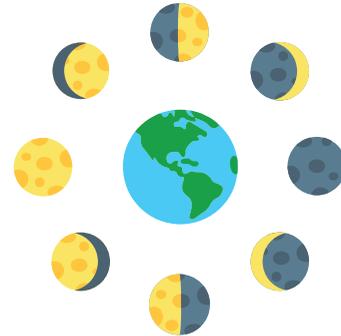

Name: _____

Date: _____

Directions:

Show what you know about the moon and the patterns of the phases.

1. Cut out the names of the moon phases. Then, glue the name of the phase in the box under the correct picture.

last quarter

full moon

first quarter

new moon

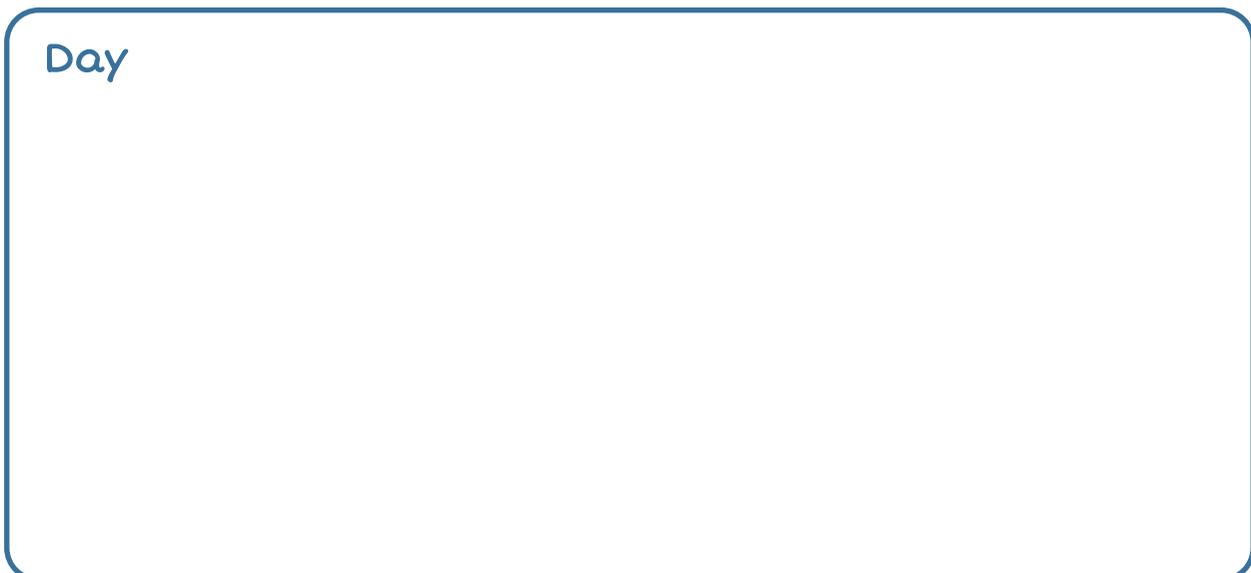

2. Create a moon phase chart for this week using the steps below.
- a. Draw a picture of what the moon looks like in the calendar box for each day.
 - b. If it is a cloudy night and you can't see the moon, draw a cloud on your calendar for that day.

Monday	Tuesday	Wednesday	Thursday

Friday	Saturday	Sunday

3. Draw a picture of what it looks like outside your window during the day in the day box below. Draw what night looks like out your window in the night box on the next page. Write the name of the season below the night box.

Day

Night
