Life Cycles

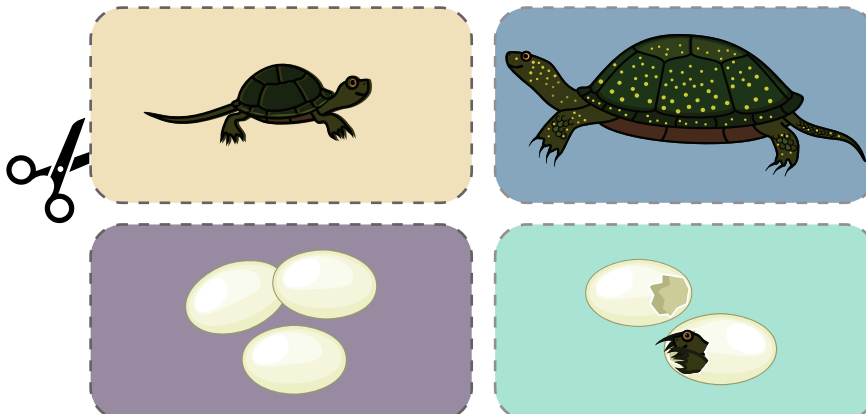

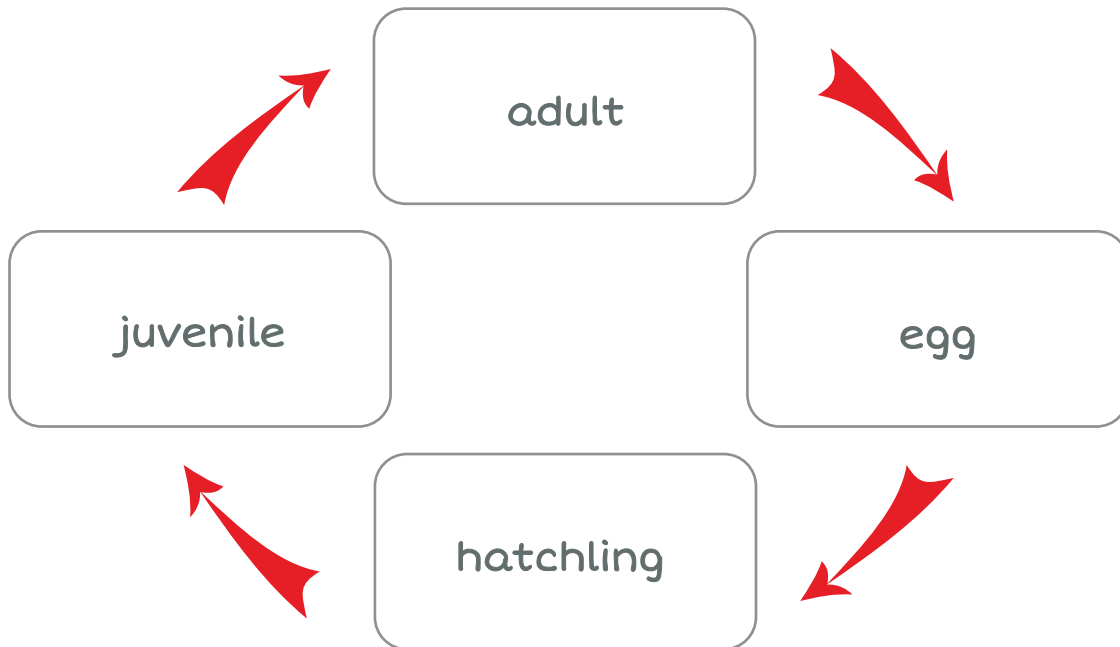

Name: _____ Date: _____

Directions:

Complete life cycles of turtles and frogs and create a Venn diagram to show the differences between reptiles and amphibians.

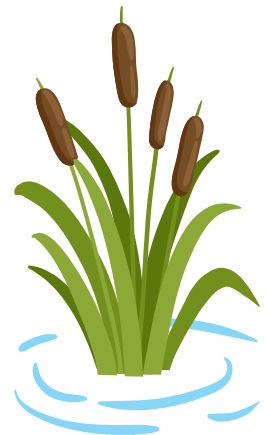

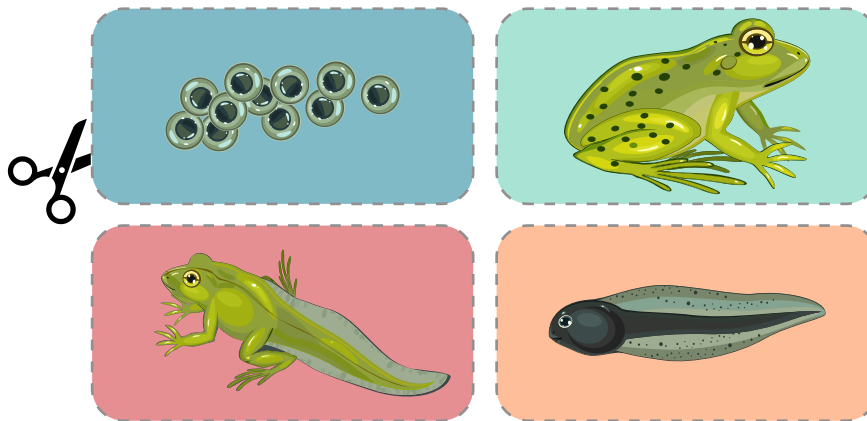

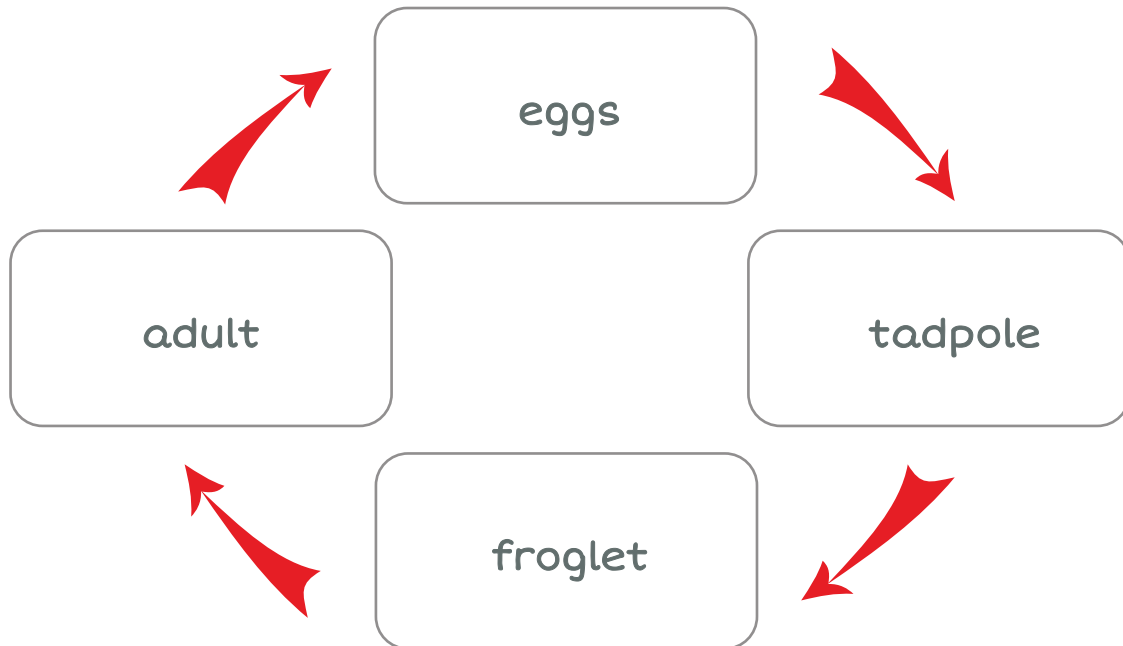

I. Turtle Life Cycle

- Cut out each picture.
- Paste the picture in the correct part of the life cycle.

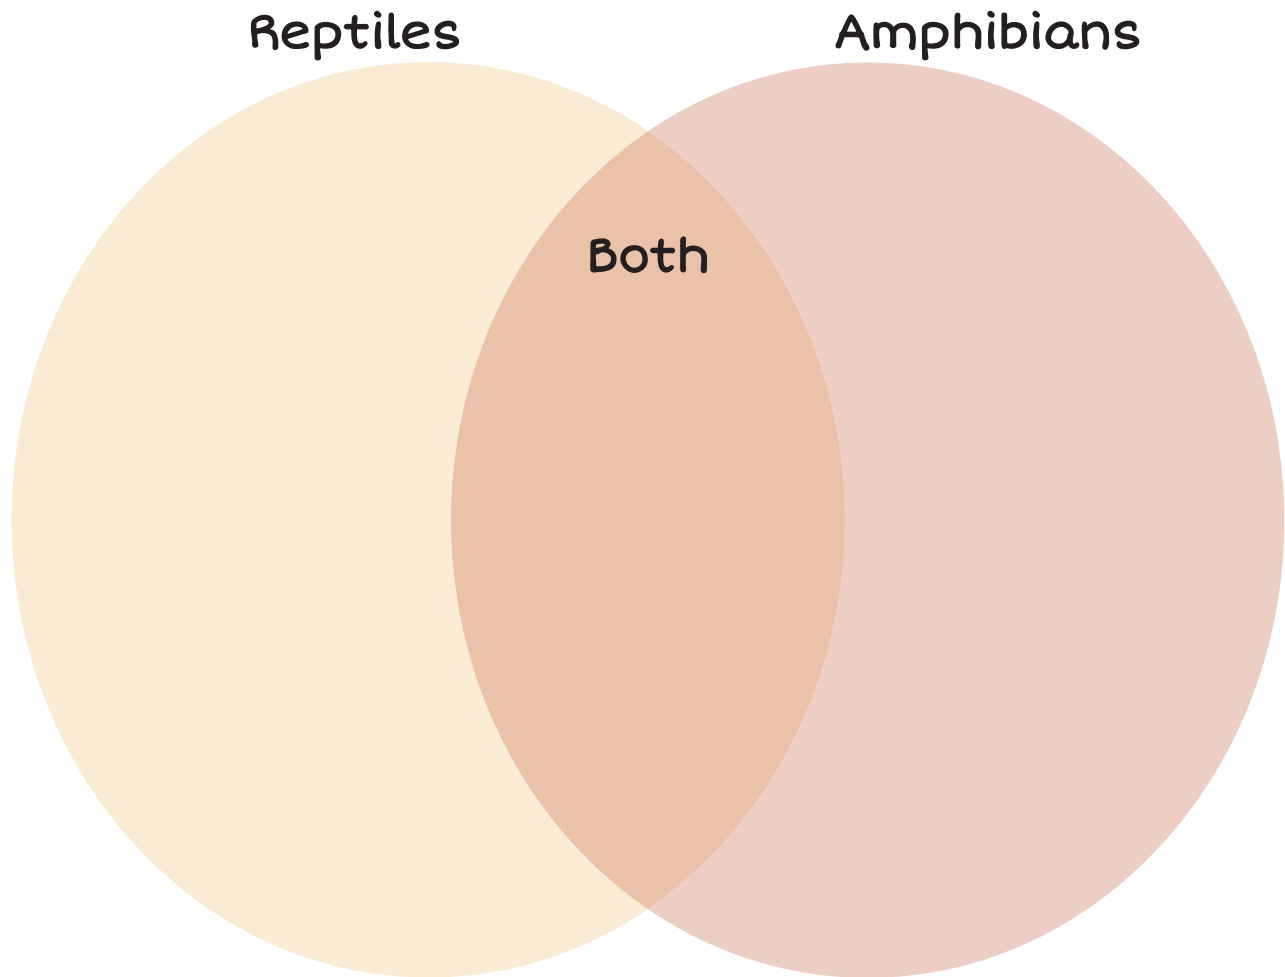

2. Frog Life Cycle

- Cut out each picture.
- Paste the picture in the correct part of the life cycle.

3. Complete the Venn diagram to show things that are the same and different about amphibians and reptiles.

- Cut out the words.
- If the word fits only with reptiles, paste it on the left.
- If the word fits only with amphibians, paste it on the right.
- If it fits with both reptiles and amphibians, paste it in the middle.

Dry skin	Scales	Born with lungs	Lay eggs
No scales	Born with gills	Cold blooded	Moist skin
