

LESSON 1 • PACK YOUR BAGS ACTIVITY

The Travel Section of your newspaper can provide valuable information about a part of the world you may know little about. Read a travel article about a city, country, or region you find interesting. Based on the information gathered from the article, plan a packing list of what you will carry in your luggage or backpack. In a well written article (pretend you are writing for a travel magazine) explain why all the things you have packed are necessary or desired for your particular location.
