

## Going to Class

### Narrator:

Welcome to your new class! We're glad you're here, and we want to make sure you have a smooth and successful transition to online learning. To get started, make sure you're browsing the internet with Chrome or Firefox browsers, which are both free to download. Your enrollment email will have a link to your class login page, along with information to help get you started. Ask your mentor for your username and password.

Always make sure to keep your password secure, and never tell it to anybody.

Type in your username and password, and press **Login**. If you've forgotten your password, don't worry. Just click on the **More** menu, then choose **Forgot Password**. Enter your username, and a link to reset your password will be sent to your email address.

Once you've logged in, you will see your Student App page, which is a quick overview of the most important information about your courses. It's divided into several parts: "Courses," "To-Do List" and "Activity Stream."

You can also customize your profile and other settings, choose a theme, view announcements, and more.

You can return to your home page any time by clicking the upper menu icon, and choosing **Student App**.

To start learning, click on the course card, then open the first folder and choose an activity. As you finish each lesson, be sure to click **Mark Activity Complete**, then click **Next activity** to advance to the next task. To exit the lesson view, click **Close**.
