Suitability to Syndicate

This is to state that on the 9th February, 2026, I examined the following horse at 505, North Road, Pearcedale, Victoria.

BREEDING: Alabama Express (AUS) x Divissima (NZ) '23

DESCRIPTION: Bay Equine Thoroughbred Gelding

MICROCHIP NO: 985100012227675

SYNDICATION: Divissima Syndicate

BRAND LEFT SHOULDER:

B
G

BRAND RIGHT SHOULDER:

44
3

This suitability for syndication as a racehorse examination included a general physical examination, and an examination at the walk and trot.

On examination, the horse appeared in good health and condition. No abnormalities were detected on auscultation of the heart and lungs. No abnormalities were detected on palpation and manipulation of the legs and joints. No response of the feet to hoof testers were found. There was no evidence of lameness at the trot and the horse moved freely.

No electrocardiography, endoscopy, or radiographs were performed.

Based on my examination at this time, I find this horse to be suitable for sale/syndication as a racehorse.

I am aware that prospective investors rely on the opinion contained herein. I certify that I have no current or contemplate future interest in the above horse other than in the supply of the veterinary opinion of suitability for racing.

Warm Regards,
