## **VETERINARY EXAMINATION FOR PRIME THOROUGHBREDS**

At the request of Prime Thoroughbreds, a pre-sale veterinary examination of the bay yearling filly **Pierro ex Sacred Point** 2018 presented as Lot 426 was performed at the William Inglis, Warwick Farm Sales Complex, NSW, on the 8th February 2020.

### **Clinical Examination:**

This filly was presented for sale in excellent condition; an athletic filly, with excellent conformation, with plenty of scope for further development. The filly was examined in hand and found to be free moving. All clinical parameters were found to be within normal limits, including auscultation of the heart, with no clinically significant findings.

### **Radiographic Examination:**

There was a full set of pre-sale radiographs of this colt available for inspection in the repository at the Inglis Sales Complex Repository. On examination there were no radiographic findings of any clinical significance noted, and this horse would be considered a low risk on radiographic findings.

### **Endoscopic Examination:**

The filly underwent a pre and post-sale endoscopic examination of the upper respiratory tract. The larynx and pharynx were reported to be normal in appearance and function which fulfilled the criteria as per the conditions of sale.

### **Conclusion:**

In my opinion, at the time of this examination, the 2018 bay yearling filly **Pierro ex Sacred Point** in so far as can be determined within the scope of the examination conducted, is suitable for purchase and syndication. This horse is furthermore suitable for all risk mortality insurance cover.

Yours faithfully,

**Dr Tim Roberts BVSc. MRCVS**

12<sup>st</sup> February 2020

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any third party.
