**PLEASE NOTE:** This examination is privileged and confidential and has been performed at the request of and for the sole use of the person requesting the examination as set out below. It may not be relied upon by any other party. These x-rays were taken as a survey for the presence of common lesions – they do not constitute an exhaustive radiographic examination. The interpretation of x-rays may vary among different examiners. This report is only relevant as at the time and date of this examination and is limited to the examination performed and findings described herein. All comments, findings and recommendations made by the examiner are made in his / her opinion and to the best of his knowledge at the time of examination. It is not a warranty of suitability, soundness or saleability.
