Veterinary Report - for Syndication

Horse: **Needs Further/Why For'17**
Lot 127, Magic Millions Tasmania Yearling Sale 2019
bay filly

Microchip: 985100012146565

Location: MM Tasmania Sales Complex, Inveresk Showgrounds, Launceston, TAS

Date: 25th February 2019

Needs Further/Why For'17 was examined today to determine suitability for public syndication.

A general health check was carried out and no clinically significant abnormalities were found.

No lameness was observed at the walk. Palpation of all four limbs and major joints revealed no significant abnormalities.

Standard repository radiographs (36 views) found this yearling to be low risk for racing.

No blood tests, endoscopic examination, ECG or other tests were performed.

It is my opinion that this is a fit and healthy individual. She is well balanced and free-moving. All clinical parameters were found to be within normal limits.

Based on the examination conducted, **I believe this horse to be suitable for racing and public syndication** at this point in time.

I certify that I have no current interest nor do I intend to have any future interest in this horse other than the supply of my veterinary opinion.

This report was requested by Mr Joe O'Neill for inclusion in the PDS issued by the syndicator, Prime Thoroughbreds.

Dr Eoin Kelly MVB MRCVS
