

Student Reflection Page: Laurie Grossman

Grade Level: PreK-2

Complete this reflection page after watching the Deeper Look video: Laurie Grossman. In this piece, Ms. Grossman speaks of how all students recognize bullying, especially on the school playground. Write a sentence or draw a picture that responds to each question.

1. Ms. Grossman says, "If you are a kid in any school, you know bullying." She says everyone has some experience being a bully or a victim or a bystander. Write a sentence or draw a picture of how you have experienced bullying.

2. Ms. Grossman says that during playground time kids often don't feel safe, or they have been teased and taunted, or they feel excluded, left out. Write a sentence or draw a picture about a time you have seen or experienced any of these things on the playground. How did it make you feel?

3. The video ends with Ms. Grossman saying, "If kids can learn to respect each other and treat each other well, everybody can learn better, do better, and support each other." Write a sentence or draw a picture that shows kids respecting and treating each other well. How can we make this happen in real life?
