Make It Monday

Step 1
Today is all about colors! Grab a few coffee filters, markers, and a spray bottle. Fill the coffee filter up with a colorful design—try not to leave too much white.

Step 2
Spray the coffee filter and watch the colors run together! It should be wet but not soaked through. Put it in a safe space to dry.

Step 3
Once the project is completely dry, tape or glue your finished product to a window and see how the colors show up!

We would love to see the finished product! Upload your picture to Facebook/Instagram and tag us: @ComfortHopeFunEquip #MakeitMonday

Get Creative—Bonus Activity
If you have yogurt and food coloring at home—you can make rainbow yogurt. Start by putting a few spoonful’s of yogurt in a cup or bag. Then add one or two drops of food coloring! Mix and see the results!

Sensory Bin: Collect various items around the house that are different colors, or cut out different colored circles. Put them in a container and cover with rice, cotton balls or beans.
