Swimming Jellyfish
Grab some bread and cheese. Rip or cut the cheese into different strips. Rip or cut the bread into a semi circle. Line up the legs under the bread to create your swimming jellyfish.

Octopus Legs
You will need a plate and your favorite cereal (or small snacks). Pour a small amount of cereal onto the plate. Use the cereal to create 8 legs for your underwater friend. Line them up below the plate. Enjoy!

Challenge
What other underwater animals can you make from your snack food? Adapt these activities to suit the dietary needs of your child. How many items does it take to make your animal? Help your child count!

We would love to see the finished product! Post on Facebook/Instagram: @ComfortHopeFunEquip #MakeitMonday Visit: focus-ga.org
