

The Leading  
Medical Cannabis Group  
In Israel

is powered by

# Overview

- Cann10 has become one of the leading Medical Cannabis Groups in Israel.
- To expand the [Cann10](#) model outside of Israel, required partnering with other entities and third parties to deliver the required package of skills and services to the market.
- Blue Diamond Ventures Inc. has partnered with Cann10 in North America, we believe that this collaboration will deliver the high standard of Cann10 products and services.
- A new entity will bring this powerful business model to North America.

# Conference

## Cann10

- Cann10 in Israel, has
- Successfully produced two Medical Cannabis Conferences one in September 2016 and June 2017, with a 3<sup>rd</sup> conference scheduled for [October 2018](#).
- A collaboration between a leading Israeli authorized medical cannabis farm, and a leading Israeli holding and services group, Cann10 combines the respective expertise in the fields of medical cannabis and commercialization of medical devices and drugs, to support the introduction of new high value related products.

# Cann 10

## North America

### Accelerator

- Israeli Technologies Commercialized and Capitalized by **CannX**
- Satellite efforts with emerging technologies in other countries

- Cann10 is an active member of the medical cannabis industry. With offices and activities in more than 10 countries, Cann10 is also licensed in Israel to produce and will trade in medical cannabis. We are involved in growing, producing, marketers and we help investors make the right decisions. We understand every phase of medical cannabis from field to dispensary; from growing to marketing; and from science to helping people live a better life..
- Cann10XL is a medical cannabis accelerator that offers selected entrepreneurs high quality infrastructure, facilities, networking, and tailored support. Thanks to our extensive global network, we offer unparalleled access to industry leading mentors involved in device design, IP, manufacturing, regulatory issues, marketing, branding, finance and more. We offer access to government approved farms, R&D materials and clinical studies.
- Cann10 is interested in hearing from startups with exciting technologies who would like to participate in our program.
