

OUT WITH THE OLD

**Felt the wind blow through my house
Felt like a ghost from out of the past
I wasn't sure where it came from
Like a long lost melody from a song
Must have been a reminder from part of yesterday
But there's nothing I could say nothing I could do
It's out with the old in with the new**

**Hanging on to what you've got
You can sacrifice the things that you want
The past is there for all to see
Doesn't mean you can never break free
You might find the answers deep in yesterday
They can tell what to say tell what to do
It's out with the old in with the new**

**Your shoes are old your feet are sore
The road is long to even the score
The torch you hold is burning low
Your arrows fired you need a new bow
Got to look into the future forget about yesterday
No matter what you say no matter what you do
It's out with the old in with the new**

**When the shadows long across the floor
It's time to put an end to this war
When the door has closed and footsteps fade
You realise the plans you could have made
The fall from grace is never just a part of yesterday
It's everything you say everything you do
Out with the old in with the new**
