

IN ANOTHER LIFETIME

by AJ Leonard

**In another lifetime
Look into the window
In another lifetime
Just a fantasy
Thinkin bout eternity
In another lifetime
Travel light as a feather
Heart and mind together**

**In another lifetime
Could I be so happy
In another lifetime
Would I ever see
Something that I wanted to be
In another lifetime
Would I really change
What would I rearrange**

**Living day to day
Living by what you do and what you say**

**In another lifetime
I could not imagine
In another lifetime
Solving this mystery
Life is so temporary
In another lifetime
All you need is one suitcase
The time and the place**
