**AJ's Philosophy**

*the-o-ry n the body of rules, ideas, principles, and techniques that applies to a particular subject, especially when seen as distinct from actual practice*

The language of music theory is colourful: tonic, interval, rest, chord, dissonance, harmony, inversion, crotchet, quaver, arpeggio, improvisation.

A little bit of knowledge goes a long way and this session will help put some of these theories into practice.
