

## CLOSING TIME

It's time to close the door  
It's time to say goodnight  
Let's draw the curtains now  
Turn out all the lights  
It's closing time  
The night is coming down  
It's closing time

There goes another day  
Just like the other ones  
It's just another day  
When all is said and done  
It's closing time  
The streets are empty now  
It's closing time

We fall into the same routine  
Of life and love and song  
Where have all the dreams gone

It's time to close your eyes  
It's time to say goodnight  
The full moon's on the rise  
Until the morning light  
It's closing time  
The night is coming down it's closing  
The streets are empty now it's closing  
Take my hand and dream it's closing time
