Band Bio

Another North is a band focused on exploration. During the writing process, they delve into many different influences and topics - with the intent of allowing the sentiment of a song to define its direction. As a result, they have developed a widely-diversified catalog of original music, a collection of which is available on their MusicNL nominated debut record; 'Nomadic' (released Aug. 5th, 2014).

First emerging as a hard-rock act, Another North quickly began exploring a wider palate of tones, moods, and writing styles. This allowed the members to pay homage to the artists that influenced them individually, but also enabled them to convey a broader range of emotions. Naturally Another North began integrating these tastes into their live sets, and the direction of Another North's writing continued to evolve. This approach has since produced a wide variety of tunes, ranging from pop-rock (Live Like Bear, You Ain't Got Mine) and folk-pop (Chapter 2), to indie (Oh My Electrician) and progressive rock (Malthus).

The moniker 'Another North' was taken from a piece Aaron had penned before the band formed. Lyrically the song represented finding your own direction in life, and doing what you truly believe in. The song resonated with the band, and represented what they hoped to do; pursue their love of music, their passion for creativity, and to do it without being tethered to a particular genre.

With melodic, accessible music, and relatable lyrics, Another North has been performing their high-energy stage show to a growing fan base on Canada's East Coast. Another North's members are gearing up to record their sophomore effort – with production to begin during the summer of 2017.
