"Feels' is the kind of friendly rocker that requires serious instrumental expertise to attempt - and its still rare to encounter an act that can turn such transcendent skills into a radio-ready hit like this." **The Akademia**
- Los Angeles, CA

"The song "Feels" opens the record with that tasty old school and true jam band flavor. The guitar is plucky and soaring while the bass holds a steady and deliciously thick groove. I like the way the drums and keys get laced through each song on this album." **The Jamwich**
"The band crackles with intensity and a tight groove formed from a few years on the road." **Independent Music Reviews**

"Rubix incorporates classic rock songs with their originals, making them a hybrid band that can play all kinds of venues." **Jamsphere Magazine**
