

## “Hypnotized”

You stare out into the great unknown  
Afraid of all the things that you've never known  
It's hard to fly if you ain't got wings  
It's hard to win if you're too afraid of losing

Well I know just where my heart's at  
Starting now there ain't no going back cause I'm

Hypnotized by the light in your eyes  
A feeling of home like a warm sunrise  
You pick me up when I start to crawl  
When I get too high you'll catch me when I fall  
And I just cannot quit this feeling that I get  
And I know you don't mean to, but the way that you're lovin' me  
You got me hypnotized, hypnotized

Now I'm not trying to say I've got it all figured out  
Just like you I've had my fears and doubts  
But I know that in time when push comes to shove  
We'll fly together on the wings of our love

Well I know just where my heart's at  
Starting now there ain't no going back cause I'm

Hypnotized by the light in your eyes  
A feeling of home like a warm sunrise  
You pick me up when I start to crawl  
When I get too high you'll catch me when I fall  
And I just cannot quit this feeling that I get  
And I know you don't mean to, but the way that you're lovin' me  
You got me hypnotized, hypnotized

I can't imagine my world without you in it  
And it may sound funny  
Because I used to live my life like a rolling stone  
But since I met you I can't stand being alone  
Cause you got me

Hypnotized by the light in your eyes  
A feeling of home like a warm sunrise  
You pick me up when I start to crawl  
When I get too high you'll catch me when I fall  
And I just cannot quit this feeling that I get  
And I know you don't mean to, but the way that you're lovin' me  
You got me hypnotized, hypnotized
