## “Firefly”

My firefly don't shine in the morning  
My firefly likes to sleep in late  
My firefly don't care too much for the afternoon  
But by the time the sun goes down  
She'll shine brighter than the moon

My firefly don't care too much for coffee  
Without her cigarettes  
My firefly likes to drink her whiskey  
And run her finger over the rim  
As her cold glass sweats

My firefly, my firefly, my firefly  
If you don't pin her down she's gonna fly, fly away

My firefly don't care too much for money  
As long as she can use my credit cards  
While other pretty buggies lightin' up the night  
The only time she's lightin' up is when she's gettin' high

My firefly, my firefly, my firefly  
If you don't pin her down she's gonna fly, fly away

Where you goin' next I just don't know  
Baby if I could just see you glow  
One more time in my hand  
My baby girl don't you see what we could be

My firefly, my firefly, my firefly  
If you don't pin her down she's gonna fly, fly away

She's gonna set the world on fire and you know it's true  
Ain't no tellin' what she's gonna do next  
My firefly don't fly away  
My firefly don't fly away
