

DAKOTA TOWNS

Listen to “Dakota Towns” and try to write down as many town names as you can. Since there are over 100 towns mentioned in the song, you or your teacher will need to pause the CD to catch them all. When you have some written down, try to find them on the map and circle them. Not all of the towns are listed on this map.

This may be a project you can spread out over a few weeks. It's a lot to do! Good luck!
