From Our Own Correspondent.
Burlington, Oct. 10.—At last Bur-
lington is to have a new station. Cer-
tain information received to-day is
to the effect that the old structure
which has for so long been in use
as a station on the radial line, is to
be torn down and a more presentable
building erected. This will be good
news to the residents here who have
been complaining for a long time that
the old station detracted from the
appearance of the town. It is un-
derstood that work will start on the
new structure next spring.
