**TELLS BOARD OF TRADE SECRE-  
 TARY THERE MAY BE A  
 SCRAP AT HOME AND IF  
 SO HE WANTS TO BE  
 IN IT.**

On Saturday evening, Colonel Theodore Roosevelt, ex-president of the United States, passed through Sherbrooke on the through Q.C.R. train for New York. The secretary of the Board of Trade, who was advised of his coming was at the station. Upon the arrival of the train he sent a message of greeting to the Colonel on behalf of the officers and members of the Sherbrooke Board of Trade, and of all the citizens. Col. Roosevelt, who occupied the drawing room of the Pullman, requested that the secretary should come in. He expressed a hearty appreciation for the greetings to Mr. Fitzgerald, and asked him to communicate his appreciation to those in whose name he had written the message.

**A SUCCESSFUL HUNTING TRIP.**  
 The ex-President, who has been hunting in Northern Quebec during the past month, spoke enthusiastically of his hunting exploits in this province and was proud to boast that he had secured a caribou and a moose.

**FAVORED CONSCRIPTION.**  
 Referring to the war, Col. Roosevelt stated that he regretted very much the stand which the British Trade Unions had taken against conscription. He knew that conscription, properly so called, was very unpopular in any democratic country, and he felt that the action of the Trade's Unions was due to the fact that they did not really understand the intention of the Government. **COL. THEODORE ROOSEVELT**, Ex-  
President of the United States, who  
passed through Sherbrooke.

felt that if it were given some new name, such as "Nationalization of Service," that union men would have no objection. From this it would be understood that if a man were better suited for work in a machine shop or in cultivating the soil, and was needed worse in these occupations, there he would remain. But when a man was needed on the firing line, the country should be in a position to call upon him to fill the place where he was needed. He stated that if the United States should enter the war, he felt that that country had as great or even a greater claim for service upon the sons of the wealthy financiers as upon the sons of the working man. He himself would volunteer and he would expect his four sons to do the same.

**EXPECTS THERE WILL BE SOMETHING DOING.**

Referring to the invitation which the Sherbrooke Board of Trade had extended to him to spend a few hours in the city, he stated that he would have liked very much to do this, but when he visited one city he was generally expected to visit them all. Even this he would like to do, but he was anxious to get back to his own country.

"I am not sure that there is going to be anything special happen, but if anything does happen I certainly want to be on hand."

Before the train left he again thanked the secretary for his courtesy and told him that there was no one in Sherbrooke more intensely interested in Canada and in his future and especially in her present trying situation, than he was himself.
