TRIP ON THE BELT LINE

Accepting an invitation extended to them by Mr. Wragge, some 190 members of the Board of Trade took a ride around the Grand Trunk Belt Line yesterday afternoon. Two trains had been made ready for the party, but the uncertain state of the weather deterred many from going. The party seemed to thoroughly enjoy the trip and took much interest in the outlying portions of the city. A short stop was made at North Toronto, where the members of the party had an opportunity of stretching their legs, after which the train continued its run, arriving at the Union about 5.30 p.m., and the "bulls and bears" dispersed apparently well pleased with their outing.
