Rules 41, 44, and 93a apply
between Sherbrooke and Walsh

THETFORD MINES INDUSTRIAL YARD SPUR FOOTNOTES

No engine, car or train shall exceed ten miles per hour over public crossing at grade, Wye connection, mileage 0.47 until crossing is fully occupied. There is a 175 foot timing circuit east of the Wye switch approaching the crossing from the west side and flashing light signal will cease to operate if train stands on this circuit for a longer period than thirty (30) seconds. Care must be taken that trains do not stand between timing circuit and crossing as this will cause flashing signal to operate continuously and unnecessarily.

No engine, car or train shall exceed ten miles per hour over public crossing, St. Alphonse street, mileage 2.56 until crossing is fully occupied.

Asbestos Corporation, Kings Mines private crossing, mileage 2.85 must not be blocked for periods in excess of five (5) minutes.
