

motives and other rolling stock.

Spokane International Ry.—A permit has been taken out at Spokane, Wash., by D. C. Corbin, for the construction of a freight station to cost \$18,000. The structure will be two stories high, the material being brick and steel. The S.I. Ry. is under construction from Spokane to the International boundary, where it will connect with a C.P.R. branch line from Yahk, B.C. (Dec., 1905, pg. 569.)
