Train Hits Broken Rail,
Cars Go Down 75-
Foot Slope

12 SLIGHTLY INJURED

Derailment Near Hawkes-
bury Occurs Perilously
Near Bridge

(Canadian Press Despatch.)

Hawkesbury, Jan. 8.—Three pas-
senger cars of a Canadian Pacific
Railway train rolled down a 75-foot
embankment, between Calumet, Que.,
and Pointe aux Chenes, this after-
noon, causing minor injuries to 12
persons, who were brought to Hawkes-
bury hospital for treatment.

Heading for Montreal, the Monte-
bello train ran into a broken rail just
before reaching a bridge over the
Rouge River. While the locomotive,
tender and baggage car of the train
remained on the track, the three pas-
senger cars, containing 17 persons,
rolled down the bank and were wrecked
on trees and rocks. The cars were
reported as having turned over two
or three times in the fall.

All 17 persons were shaken up and
more or less bruised, 12 of them be-
ing brought here for observation.

Six children of Mrs. Emile Gas-
con, aged 26, of Verdun, Montreal,
and their mother, were among those
brought to hospital here. They were
suffering from shock and general
bruises, but their condition was re-
garded as favorable. Others included
