D

I believe in mother earth and father above.

C

G

I believe the nature of man is love.

(chorus)

This old body, don't last a long time.

But I ain't my body and I ain't my mind.

I am a spirit, that flows to the sea.

I am a fire, that burns eternally.

I don't believe in differences, that tear us all apart.

I believe the truth resides in every human heart.

I believe you'll be there to catch me should I fall.

I believe in the one love that surrounds us all.

(chorus)

I believe in the way I feel underneath a starry sky.

I believe in what I see when I look into your eyes.

I believe in the power that flows like energy.

I believe in the fire that burns inside of me.
