

GumoManiacs - High Class Thrash Metal That Was Made To Last

Founded by **Daniel "Gumo" Reiss** in 2007, it is all about an uncompromising Thrash Metal plan that helps him and the Maniacs to release their first two albums "**Priest Of Lucifer**" and "**PsychoMania**" via the German **Underground Cult-Label G.U.C.** between **2008** and **2010** - the CD versions of both records are released via **Blower Records Mexico**.

After fabulous reviews, numerous live shows in Germany (with Sepultura, Debauchery, Anvil, Blaze Bayley and many more...) and two Headliner Tours in Mexico, "**The AntiSinner**" **EP** is released in **2012**, before the band learns about the dark side of the professional music business in **2014** by signing a record deal with **GoldenCore Records (ZYX Music)** to release the third album "**Out Of Disorder**". The apathetic handling of the band's plans and intentions by the label leaves the **GumoManiacs** unable to move forward and even pushes them towards the edge of ruin.

Still true to the motto "*Thrash Metal is not just something I can quit, but it is quite simply WHO I AM*", **Daniel "Gumo" Reiß** decides to keep on fighting for what he believes in. The focused hatred towards the damage done to his band by the outside manifests itself in **2016** in the (for an unsigned band absurdly high-class) album called "**Demons**", that builds a magic unit with the atmospheric "**Damnation**", which was produced for GoldenCore in **2014** but was never released by the label. Both finally see the light for the 10th anniversary of the band on "**By Endurance We Conquer - Demons & Damnation**" via **Ghost Town Noize** in **2017**. The 2 CDs offer the complete spectrum of the band's eventful history. Everything that made Thrash Metal so fascinating during the last 30 years is re-interpreted by the four passionate professionals as they forge 20 brand new tracks that come scary close to the quality, originality and attitude of the big names in the scene. "**By Endurance We Conquer**" is the ultimate jump into the elite and a must-have for Thrash fans!

Regarding the goal of mastermind **Daniel "Gumo" Reiß** to push the band forward for at least another 10 years, the re-recording of the debut album „**Priest Of Lucifer**“ from **2008** which will be called „**Priest Of Lucifer X**“ from now on becomes the very first milestone. While trying to erase the weaknesses in songwriting and sound the band takes care very carefully of maintaining the true spirit, or even increase it through the very old school styled production by **Hubi Hofmann**, to make this very popular but rare underground diamond available again at **GumoManiacs'** live shows and through the band's online channels.

„**Priest Of Lucifer X**“ will be released via the band's own label **Slash Zero Records** on **November 9th 2018**.

Thrash 'till Death
