The True Story of Mary Magdalene and Jesus of Nazareth

This book is written by Mary Magdalene who is speaking through the hands of the Mary Magdalene who is writing this story. That is why this is our story, my story and your story. When the pronoun you is used it is because Mary Magdalene is talking to me. Sometimes she calls me you and sometimes she calls me I and sometimes she calls me me. All of the pronouns used in this book are a result of how Mary Magdalene is telling the story at the moment.

These are channeled quotations from Mary Magdalene

who is my Soul.

This book needs to include our story because it will put the exact appropriate thought process into it, while it might had been misunderstood before, it will not be at this time.

God is one entity who is not separated. He has always been the same. He is Energy. Energy can be sexually charged, but the way God is is that he is not divided. When He has made man and woman in His own imagination of the separation of Himself, He experienced a love that He had not experienced before because it was an attraction that He does not have for Himself. But, man and woman attracted each other. God is All One Being who was never separated. So, how could God attract Himself.

So, this is what is important. He understood the attraction and the separation of the energies that are man and woman that He feels as one flow within Himself.

Mary and Jesus were two different Creator Beings who had two different personalities. When you came here on Earth, Jesus mission was different than your mission. Jesus mission was not originally to experience what we experienced because God didn't know what would happen. God was in Jesus, but God did not know about that attraction until you were in human form.

So, then the attraction became a part of Jesus mission

because it changed the thoughts of God. You were there as a Creator Being, and He knew that you had a purpose there as a female, as an opposite sex because He had seen male and female interactions for millions and millions and trillions of years, but not experienced it.

So, you were put there to be with Jesus so that he could experience that. The surprise was the love. the beauty of that strong affection, that strong attraction, and He was taken aback because He put Himself in both of you. He put Himself in this situation where you were coming together in love, in oneness, in the beauty of oneness. And so that made you part of Jesus, and Jesus part of you. So, you are now One.

But, you were put on Earth as separate Creator Beings but you were joined as One Creator Being which is something that does not happen in the Creator Realm.

God was in Jesus and God was in Mary. We were both Creator Beings who had different missions.

God put Mary on Earth to unite with Jesus. That was part of the mission. However, Jesus was busy doing other parts of his mission before he found Mary. When he found his attraction to Mary that created a new mission for Jesus and Mary that God did not know would happen. The attraction of Mary and Jesus became a much greater part of the mission because it allowed God to experience something within Himself that He had never experienced

before.

God is within every human being. However, God is within Creator Beings in a much greater way, and a more complete way because you have a greater consciousness of God.

You as Mary Magdalene were washing Jesus feet with great expensive oils. Remember that? Everyone was saying what is she doing wasting these precious, expensive oils on his feet? When Mary washed Jesus feet with the expensive oils it was to announce him as the annointed one. The word Christ meant annointed one. But , Mary was the only one who truly understood who Jesus was completely as a Creator Being who was an annointed one.

There were others who were called the annointed ones, or the Christed ones in history before. The seven suns, Ka Ra Ya Sa Ta Ha and La were annointed by God as the Christ during the First Creation.

God placed you there to be the Creator Being who understood the consciousness who had to do this. It was a symbol to humanity and to all conscious Creator Beings around and they were all crying. It was such a moving moment for them who were Creator Beings who could understand.

Mary Magdalene's family thought Jesus was a little odd and they wanted to keep their distance from him. Jesus

didn't claim to be the savior. But, people did see him doing healing that saved people. He was going against the rules of the Bible. He was going against the rules of the Pharasies. That is why my family wanted to distance themselves from him and they did not know Jesus very well at all. Jesus was sort of an outcast in society. And that is what I loved most about him, was that he didn't care what people thought. He was his own person. That we were Creator Beings together and we had our own missions and we had our own ways about how we thought and did things.

I was with Jesus when he came to raise Lazarus from the dead. It was Mary and Martha who were there. The Bible makes it sound like it was a different Mary, but it was me. I was there with Martha. Mary and Martha were sisters. Mary had won Martha over to her side of thinking about the thought processes of Jesus. The rest of the family was kind of against us. But Martha was bitching and groaning about Jesus not being there. And she blamed Jesus for not being there sooner. She blamed Jesus because she thought if Jesus had been there sooner, Lazarus would not have never died. Of course, I knew that when Jesus would come that Lazarus would be fine, but I could not tell her that because she could not understand.

Mary Magdalene could had raised Lazarus from the dead just the same way that Jesus did. I knew how to perform a resurrection because I was a Creator Being. However,

God did not want me to do this. God had special reasons why He wanted me to be the one showing people that Jesus was the Christ, or the annointed one. We had to create this great story of God learning about Himself and mankind learning about God through One Christed person on Earth or the story would had never had the impact on the thought process that it did at that time. There were reasons why it would be much more difficult to show the female as the savior at that time.

There were other Creator Beings around at that time. Some of them were known and others were not known. Judas was with us as a Creator Being. He had his mission. His mission was to announce the location of Jesus, just as I was to announce Jesus as the annointed one. This was all a part of the story that God wanted to be told.

After Jesus was on the cross for three days while he was talking to the demons within the Earth, his body was taken to the tomb. Jesus went down and forgave everybody in hell.

One part of the story that has never been told was the fact of how happy I was when I was watching Jesus nailed to the cross because I knew that he was forgiving everyone in the place called Hell. This was what made God happy. This is what made the Angels and the Creator Beings happy. This grand event that was made known through the Universe that God had forgiven everyone on Earth

and in Hell is the reason that the entire Universe was singing with joy at that time. We were all crying with great joy. We knew as the Creator Beings what was actually taking place.

It was the Angels who moved the stone from the tomb so that they could perform a resurrection for Jesus. I was there with the Angels, but God wanted the Angels to perform the resurrection. That was how God wanted the story to be told.

So, now the story can be clarified to show that Mary Magdalene could perform a resurrection. Mary could turn the water into wine. It would also be true to say that Mary could do anything that Jesus had done during his time on Earth, and I did not many of the same things that Jesus did. However, that is not how the story was told at that time.

Now, I have returned to Earth to tell the story in a way that is most correct for those to know in the future who are the select Spiritually Elite who can expand their consciousness into this knowing that a female could do the same things that a male could do even as a Christed Being or Creator Being, or any being who God shines His Light Through.

God shines His Light Energy through everyone, but the amount of Consciousness within a Creator Being is so vast that it links all that is within the Creator Realm into

the one standing on Earth who has the Soul of a Creator Being within them.

There were other Creator Beings present during the time of Jesus and Mary. Some were in human form and some were present in Spirit only. And Judas was told by God to expose the location of Jesus. Judas did not hang himself, or feel bad for doing what it was for him to do. We each had our own mission to perform.

## GOD'S DISCOVERY OF THE ENERGY OF LOVE WITHIN HIMSELF

God could not experience the same energy of love that a man and woman on Earth can feel because the man and the woman are two separate beings. God could not know Himself through this separation because God was One. God could only experience Himself as the energy within Himself. So, therefore, He could imagine this energy experience that he saw when he observed the male and female beings on Earth having.

Energy can be sexually charged. There can be male energy and female energy. That is one form that God's Energy can be transformed into when there are two separate beings who are attracted to one another.

However, God could not be separated and therefore, He

had no other part of Himself to be attracted to. This idea could be brought down into the scientific exploration of electrons and protons being opposite types of energy that attract to each other. While the God energy would not have this electronic energy that created separation.

So, God can be understood in this way, but it is actually completely incorrect. There were never any electrons and protons within God. There was only Oneness of God within Himself. God is and was and always has been the Source of all Energy. God is Energy. God did not experience Himself as what this Energy could create until He created the Creator Beings.

Atoms are made of extremely tiny particles called protons, neutrons, and electrons. Protons and neutrons are in the center of the atom, making up the nucleus. The charge on the proton and electron are exactly the same size but opposite. Since opposite charges attract, protons and electrons attract each other.

Now, we can see, through the story of Mary and Jesus that the idea of opposites attracting in protons and electrons is quite a bit different than what happened when Mary and Jesus found each other, and became attracted because they had come from identical thought forms within the Creator Realm.

Of course God had already experienced His Eternal Energy field as containing these protons and electrons

because God created the Creator Beings to create the form of Light and Sound and Energy and Matter in ways that He could experience that virtual reality that He had only known as His Oneness.

So, both of these stories are true about God. God experienced His greatest joy when He was able to realize Himself as Light, which was an outward phenomenon from the Oneness of Energy that God had experienced. Both of these experiences were the moments of God's greatest joy. Both of these experiences were performed by the ones who were known by many names including Mary and Jesus. We were named Of the Breath of Light, the Flame of the Eternal Sun, and the Seed of the Future.

It was the Creator Beings who first allowed God to say Let there be Light. Creator Beings used the Invisible Energy of God to create forms of reality that God could experience within Himself.

The Creator Beings were manufactured by God to utilize His Eternal Energy in infinite ways that would allow Him to explore Himself. There were already Universes and Stars and entities in God's Movie, which was His Eternal Energy Dream. However, God only knew Himself as One Grand Energy Machine. He had never had any experiences of Himself.

However, God is not divided into a male and female. God created Creator Beings who were also Souls who

contained the male and female within them. God's Creator Beings were the same as He was in the Creator Realm. God created the Creator Beings as extensions of Himself who could be used in a way to experience the thing that God could not experience in His Realm of no time and no space creation.

God chose to send the Souls whom He had named Of the Breath of Light and Seed of the Future to Earth as a man and a woman. These Souls were given the names Mary Magdalene and Yeshuwa ben Joseph when they were born into human bodies.

When God sent us to Earth, He did not know what would be discovered through us. He really had no idea what would happen when Creator Beings went out to those on Earth to discover more about what was being felt and known and discovered by those corporeal beings that God had placed on Earth by the Angels.

First, God discovered the feeling of birth through Yeshuwa ben Joseph. God did not discover this feeling through the mother called Mary because she was not a Creator Being. God could only discover the feelings within Himself through Creator Beings.

God decided to have the first seal and the fourth seal completely opened during his birth so that God could experience this feeling of birth through the heart of man. So, God had always used the Seals within the human form

to send the allowance of experiences into those on Earth. However, it was always God who made the choice to open a seal because He knew that the person was ready for this new experience within his lifetime.

So, God used these Seals in Yesuwa ben Joseph in a different way than He uses the Seal in the normal human. God can use the Seals to absorb the experience into Himself when a Creator Being is having the experience. God does not absorb experiences from normal human beings. Instead, He allows those humans to have the great connections with as many of these feelings and experiences that they individually allow to be attracted to themselves.

The Creator Being is different than a normal human being because the Creator Being always maintains the original Frequency Signature of God's Creation Energy. The Creator Beings are the Creation Energy placed into forms that can go out into the dimensional realms and have experiences that God can discover.

We function like a Soul who goes from God to man and from man to God, however the only time the the energy goes from man to God is when the absolute equivalent frequency of God Energy itself is flowing through us into God.

God made the idea of man and woman in His imagination, and He experienced the love that He had never

experienced before because it was an attraction that He does not have for himself. But, man and woman attracted one to another. Since God is all one being, how could he attract Himself to Himself?

What was important about having Mary and Jesus as the female and male Creator beings was the experience of the attraction that God could have as a result of His own energy being Separated into a male creator being and a female creator being.

This was the first time that God could feel this attraction of the male and female within Himself as one flow of energy.

When Jesus began his experience on Earth he did not know that a part of his experience would be this discovery of the separation of the male and female flow of energy within God because God had no way of knowing what would happen in this experience until it happened.

When Jesus and Mary fell in love, God experienced a new emotion, a new experience, a new flow of energy within Himself that He had never experienced before.

Of course, God did know that corporeal beings had sexual relations of a man and a woman. He had observed his relationship for billions of years. But, God had never had the experience himself.

God was in Jesus and God was in Mary, however when we

were together in the Creator Realm we could not experience feelings of separation. When we came into a human form, we were able to discover these feelings of love and passion as two separate beings coming together, and that is how God could have this same experience.

God created the Creator Beings for the purpose of allowing Himself to experience for Himself the creations and the beings within the creations that He had imagined in his Dream Creation of no time and no space.

The Creator Beings created Galaxies that allowed God to experience the making of the Galaxy and the feeling of the galaxy. Creator Beings created Novas, and we created Super Novas that we chose to explode into millions of new Star Systems. We made these decisions together because we were God's Energy in action.

God can only observe the beings whom he has created. However, God's energy, God's light of creation is in each one of the beings that He has created. These beings who are not in the Creators Realm also create experiences and fall in love and have babies, and God is always watching over those experiences. However, God can not actually become a part of those experiences in a way that allows Him to have had that experience Himself.

There is a word for that. It is called an empathetic experience. When God is watching His Corporeal Beings

that have a light stream of God running through them, God is watching the movie that was created through all of His streaming of His Energy into Light. This is much like God watching a movie that He has created. That experience is called a sympathetic experience because the observer is watching the experience, but is not in the experience.

The mission of Jesus and Mary bringing their separate souls together into a new energy and a new experience allowed God to actually become a part of this energetic flow of energy, much like He does when He is with us when we create a galaxy together. This was the first time that God was actually within the experience himself.

What God felt was shared with Jesus and myself in the most vivid ways. God was thrilled. God was ecstatic. God was without words about this experience that he was able to be a part of.

God will be eternally grateful to Mary and Jesus for allowing such an experience to be known within His energy field.

I already asked the question that you are asking to Elaika and to Jesus. The answer is that there are many people on

Earth who contain so little of the light of God that they seem demonic and they seem very evil. They are not demons. They are just people who refuse to let God's light shine through them in any way.

Most of those who are thought of as demons are not demons, they are fallen angelics who were actually angels at one time who decided they wanted to create kingdoms without the help of Source Energy. That was basically an impossibility because it is impossible to create anything without Source Energy.

That is what needs to be understood on Earth and in all planetary consciousness.

The only reason that these demons are causing torment is because there is a belief that there are those who have power other than God.

That is who most of the demons are. They are not actually demons, they are suggestions placed in consciousness because consciousness does not contain the FULLNESS of God or Source Energy.

What is different about the third dimension and the fourth dimension is the fact that those who rise into the fourth dimension no longer believe that there is any reality that does not contain the FULLNES of Source Energy. That is what will allow those of us who turn into

light to do so.

The more we allow only the Fullness of Source Light to be within us, the more the demons can not come near us.

This is a very different reality than the one that took place in Monterey, California on July 27, 2008. It was during that month of July

that God and our Soul Team told Joe that the demons were there and they were going to try to possess him. That was the month when Joe

stood strong against all of the suggestions and attacks of these demons.

That was a planned event. It was planned by God Himself. It was planned before Mary Magdalene came to Earth. It was planned because we all knew that the demons in the hybernization zone were waiting for the time that they would be given a passage from within Earth that would allow them to take control of the entire universe. However, that was an impossibility, because God already knew that they would do this, and He already had a plan to keep it from happening.

These demons knew that we were Mary Magdalene. These demons knew that we were opening the Ascension Portals. These were the demons who live within the Earth's hybernization zones. They wanted to possess Mary Magdalene so that they could become the Consciousness within the Portals.

These Portals connect Earth into the Universe. If the demons were not removed from Earth completely through the process of Joe dying and God going into Joe's Soul and removing it from his body, and removing the demons from the Universe through this process, the demons would now be the consciousness flowing through the portals instead of the consciousness of the Original Ones flowing through the portals.

I already asked the question that you are asking to Elaika and to Jesus. The answer is that there are many people on Earth who contain so little of the light of God that they seem demonic and they seem very evil. They are not demons. They are just people who refuse to let God's light shine through them in any way.

AND, I also shared the dialogue that I had with Jesus in April of last year when we talked about how we had been

successful in removing the demonic consciousness from Earth before the portals were open. And there were no demons slipping through any of my portals.

BUT, in March of 2017 five NEW GROUPS of fallen angelic teams did find a way to enter back into Earth.

Now, I would like to show you the BIG PLAN.

Yes, those new five groups are on Earth. However, they have now power over the part of the Earth that is rising into the Fourth dimension.

Fallen Angelics cannot come to the fourth dimension. They knew that their only chance of taking over our consciousness was when we were in the third dimension.

So, they are trying one last time to influence as much of the consciousness of those on Earth as they possibly can during this one small window of time, which is only another twenty years.

Those who move most of their consciousness into the fourth dimension, even while standing on this third dimensional Earth cannot be touched by that demonic consciousness, which contains very little light.

Those with light within them are much more powerful than those without light within themselves.

When we, the Cosmic ones look at these tiny little bits of

demonic power on this Earth, we see it as just a tiny little bit of what needs to be changed within this huge Cosmos that contains enough light to create galaxy after galaxy after galaxy of pure light, where there will be no place where the light does not shine.
