

The Long Way Down

Words and Music by Nathan Bell

I'm on the long slide to the bottom
I'm sinking like a stone
Smoke 'em if you got 'em
There's a dead man walking home

I've got a tattoo on my right shoulder
And another on my left
One says I'll live forever
The other says this life will be my death

And I wonder if you'll love me
If you'll still come around
On the long way down

Money isn't everything
It just buys a little hope
'til one day you find you're hanging
At the end of your own rope

There's no wall of heroes
For the ordinary man
Who's counting down to zero
On his hard and empty hands

(Chorus)

And all I ever needed
Was to do enough
And all I ever wanted
Was to live on the right side of love

I'm on the long slide to the bottom
I'm a shadow that I cast
Smoke 'em if you got 'em
There's a dead man walking past
