

## STOP CALLING THEM "ISIS" AND THEIR POWER IS GONE

**The Holy Name of ISIS - THE MOTHER OF GOD – is being used nowadays, either out of IGNORANCE or PURPOSELY by both the Media and world Governments to define a criminal organization based in the Middle East!** In doing so, both Governments and Media are either inadvertently or treacherously injecting **spiritual power** into that same criminal organization which they pretend to weaken, endowing it with a **resonance** that has been used, and effectively used, in magical-religious ritual for thousands of years.

There is full reason to believe that the denomination "ISIS" was launched **ON PURPOSE**. For, as I explain in my book "Gates of Time Windows of Opportunity" recently published in The United States, the founding of the "Islamic State" in April 2014 is symmetrical **in time** to the founding of the State of Israel in April 1948. **In space**, the "Islamic State" lies in the territory that hosted the Jews as slaves in Babylon until they were **SET FREE** by the Persian Emperor Cyrus the Great in the 6<sup>th</sup> century B.C. This explains why the State of Israel is so afraid of the other religious-political hybrid, the Islamic Republic of Iran. The two states are **66** years apart – 66 being the number of the Essential Force of CONFORMITY or STATIC BALANCE. The symmetry axis falls in the year **1981** which is the year when Ronald Reagan took up the United States Presidency.

"ISRAEL" is a Holy Name for GOD'S Chosen People, defined in the Book of Psalms as those who keep the Ten Commandments, the Righteous. In my book, I show that the name "ISRAEL" does not define a religion, or an ethnic compound, it defines "GOD'S PEOPLE", all those who respect GOD'S LAW and thus safeguard their hologram of our Solar System (GOD'S "likeness and image") or "soul" intact. "ISIS" is the name of an Egyptian Goddess, same as Israel is the name of a Jewish Patriarch "Jacob", but both names extend BEYOND their original sphere of meaning.

When the name "ISRAEL" came to be associated to a state – a political construct, religious Jews said it was blasphemy. Nevertheless, the state was founded and it prospered quickly at the expense of everybody else (especially of Palestinian Arabs). It turned post-WWII United States into its "Promised Land" **simply by naming it "Aratzot Ha-B'rith"** (a phrase which means "The United States" as well as "The Lands of The Covenant"). Here is what the resonance of a Holy Name (Ha-B'rith) managed to accomplish. In the Book of The Genesis, GOD gave Man the power to name things, and by doing so transform them and make them his own. So, just by naming the US "Aratzot Ha-B'rith" the State of Israel transformed the United States into its Territory. And the relatively recent advent of Israeli Prime Minister Netanyahu in the U.S. Congress to criticize the U.S. President for the Iran deal is the most telling evidence of this "de facto" situation. America essentially is Israel's Territory, occupied not with the force of arms but with the powers afforded by the Science of Time and Number filtered through the Qabbalistic and Masonic traditions. The higher the power, the more subtle its workings. But the more subtle workings have the more devastating effect. **Over time.**

In the wake of Paris terrorist attacks that left 130 people dead, French President François Hollande said that France was at war with "Da'Esh" not "ISIS". And this choice of words, same as the choice not to wrap up museum statues or offer wineless banquets (or any banquet for that matter) to Iran's President was deliberate, not casual. Mr. Hollande evidently **KNEW** why the Holy Name of "ISIS" should not be used to define the organisation who murdered his people.

Not so in Britain and The United States. Local media continue to use “ISIS”, “ISIL”, “IS” and “DAESH” interchangeably. They don’t seem to have A REASON for alternating the terms, or to realise THE ESSENTIAL DIFFERENCE between the name “ISIS” and the other names they use to define the fighters who have vowed the destruction of Christianity and Judaism, the two great monotheistic religions that **ARE DIFFERENT** from each other and, even more different, from Islam. The, difference, however, is **UNESSENTIAL, the ESSENTIAL UNITY of Judaism, Christianity, and Islam is that GOD IS ONE, and this is what matters.**

Look at the two pictures below. The one is a photo of Julie Andrews from “The Sound of Music” classic, used to illustrate the “arm’s length” (“einearmlaenge”) policy of the Mayor of Cologne, the other is a representation of the Egyptian Goddess ISIS. The former was used on Twitter to mock Mayor Reker’s advice in the wake of Cologne New Year attacks on local women by unidentified immigrants, while the latter is a museum artefact.

But the essence the two images convey is the same – the Mother of GOD welcomes you with her arms open, whoever you are. This is true about THE MOTHER OF GOD, **but IS FALSE as far as any organisation is concerned.**

So if you continue to name this organization “ISIS”, here is what is going to happen. **You will tremendously enhance its power to draw new members in its open arms, brainwash them, cause them to become suicide bombers, attackers, rapists, whatever, and then you’ll wonder what you can do to stop them.**

**STOP using the Holy Name of ISIS - THE MOTHER OF GOD - to define a criminal organization! And you shall see how military strikes of Western Powers in Syria and Iraq become more successful, terrorist attacks are curbed, and the magnetism of the outlaws sharply decreases.**

**They are using Religion to motivate Destruction. You are inadvertently using a powerful magical-religious terminology to define them and their workings and boost their otherwise non-existent spiritual advantage. STOP DOING THIS – agree to call them by the name that best fits their essence: MERCENARIES, LOST SOULS, BRAINWASHED CRIMINALS, and then you shall empower all your readers/watchers/listeners to realize whom they are dealing with and BE PROTECTED.**
