

WHY is Donald Trump Destined to Be the 45th President of The United States of America?

BECAUSE IT IS GOD'S WILL AND IT'S "WRITTEN IN THE STARS"

For anyone who cares about the Earth and its lot, wherever we are it is only normal to watch closely this year's U.S. elections that are bound to have such a decisive impact on world affairs. The latest surprise move of candidate Donald Trump dodging the FOX News debate has grabbed worldwide media attention for the very exact reason why his entire campaign has been so successful and economically viable as well so far. Donald Trump is essentially a man of action not words. What he has accomplished and what he DOES is far more significant than what he says.

His meteoric ascent has prompted us to look for the true reason or **the cause** why he is so successful in unfamiliar territory. Everyone will agree that his "thing" is business not politics, so what makes Donald Trump so possible and even probable not only as Republican Nominee for this year's elections, but as the 45th President of The United States of America in defiance of all odds.

I have looked for a scientific answer, one that is clear and unambiguous just as Mr. Trump's attitude throughout his campaign has been most straightforward, replete with contradictions but nevertheless so POWERFUL and ASSERTIVE. Someone said: "The last thing we need is a weak president." And **who is** the strongest fellow out there? Again what is Donald Trump's secret asset that enables him to score big and makes him not virtually but **REALLY "UNSTOPPABLE"** in his race for the U.S. Presidency.

Paradoxically – and Mr. Trump appears to be well-versed and/or well-advised in the manifestations of the Law of Paradox – his "secret" lies very much in the open,

for those who will be attentive as well as unbiased. It has to do with **who Donald Trump is** – his essence as a human being beyond his personality, social and economic profile, behavior or utterances. The **essence** of Donald Trump is revealed by the unique time-space co-ordinates of his birth and the interpretation of his birth chart **NOT** through traditional Astrology and Numerology or other modern offshoots of an Ancient but lost Sacred Science, but based on the very Ancient Sacred Science of Time and Number which I have presented in my recently published book “Gates of Time Windows of Opportunity”.

Just like Donald Trump at the beginning of his campaign, this Science appears quite simple and unappealing to the majority of an educated mindset who enjoy complicated things and theories which elude the essentials. And these essentials according to the Science of Time and Number are the Essential Forces of Creation through which GOD causes us into being. These Forces are exact numbers, are endowed with a particular significance extracted from their position in our Solar System, and we can either allow them to flow freely and accomplish our destiny, through our exercise of Free Will with KNOWLEDGE of the same or, through the same exercise of Free Will with IGNORANCE thereof we can inhibit them to the point that our existence ends up derailed.

So when many proclaim today in various forms: “Let the Universe work through you rather than attempt to do things only by yourself” they all point towards the “gates of time” and “windows of opportunity” that KNOWLEDGE of one’s particular Pattern of Force immediately reveals.

Donald Trump has constantly demonstrated his **MASTERY** of “the Art of Being at the Right Place at the Right Time”, last but not least by not showing up at the last debate before caucuses begin. Let us examine his Essential Profile to see exactly **why** he was able to demonstrate Mastery to such an extent, which many

out of ignorance and/or sheer envy will attribute to his "intuition", "chance" or "luck".

Below is Donald Trump's birth chart made publicly available through the internet. There is no reason to assume it is not exact. It shows that his existence started on June 14, 1946 at 10:54 a.m. in Jamaica, Queens, New York. The day was a Friday (ruled by VENUS) and the planetary hour that of JUPITER.

Donald Trump's natal SUN is on the quintessential degree of the Essential Force 17 (CHANGE). This degree (23rd of Gemini) corresponds to Essential Force 11 (MASTERY). The countenance of his natal SUN is that of Force 42 (Authority). Let us analyse this information further. As explained in my book, 17 is the return arm of Force (SATURN-URANUS) of the Force of Continuity (10 URANUS-SATURN). Together they are defined as "Continuity through Necessary Change". In order for America to continue being a world leader, a major CHANGE is NECESSARY and imposed by its Destiny as a nation. It cannot go on same as before. Donald Trump bears the mark of this CHANGE as well as of the quintessential MASTERY (Force 11: URANUS-JUPITER) to implement it. The latter is additionally highlighted by his natal URANUS trine JUPITER, and his natal MIDHEAVEN.

He also has the AUTHORITY (42) of a Son of GOD (we are all Sons of GOD according to the Sacred text of the Psalms, but we are not born equal) who was entrusted with a High Mission (not just any mission). Force **42** is the mark of a “Son of GOD made anew” – the one who has undergone a transformation from the Left side of Space or Form – just like Force 41 which is highlighted by his JUPITER, but is less prominent in his Profile, is the mark of the “born Son of GOD”. Combined, Forces 41 and 42 constitute the unmistakable seal of a High Mission. When Trump speaks he does it with AUTHORITY. This AUTHORITY does not proceed from his huge fortune, his education, his social status, contacts or relationships or even his personality, it is the outward projection of Force **42** which the SUN transfers onto the Sphere of SATURN which is that of DESTINY or NECESSITY. Apart from being the countenance of his natal SUN, this same Force is also highlighted by his natal SATURN and NEPTUNE, and his progressed SOUTH NODE.

SATURN is the Sphere of Divine LAW or NECESSITY which translates as CONSTRAINT as well – one cannot avoid one’s Destiny neither can anyone else interfere with another’s Destiny although so many think that they can. URANUS, the superior Sphere to SATURN, is the Sphere of Divine LOVE or the Gift of Life. It is highly relevant that in Donald Trump’s progressed Chart as of January 2016, both these spheres occupy the degrees of their respective countenances (9 for URANUS, 18 for SATURN). Furthermore, Mr. Trump’s progressed URANUS is occupying the preceding degree of his natal SUN (22nd Gemini) which matches Force 17 with its cause Force 10. This positions him ideally as the person through whom this Couple of Essential Forces manifests, and defines his Life Mission at the highest level as that of **ensuring CONTINUITY through NECESSARY CHANGE.**

45 is the Essential Force corresponding to the SUN Sphere in our Solar System, the defining attribute of which is **TIME**. The SUN is the Time-Keeper for the entire System. The value of time on each planet is given by its movement around the Solar Sphere. Like all sphere Forces in the system, this is the centripetal Force that, apart from configuring its own Sphere, keeps all planets moving on their respective orbits by exerting an uninterrupted balancing effect on all via the cause-effect couples of Forces originating in itself. This Force is highlighted in Mr. Trump's hologram by three elements: the positions of his natal SOUTH NODE, his progressed MARS, and his progressed ASCENDANT respectively. It explains why his actions are timely while those of his opponents are not (there cannot be two SUNS but one only). As well as why his absence from the podium of the last FOX New debate caused such an "eclipse" for all those present.

Let us pause briefly and conclude that even if other indications were absent from his Essential Profile, the above-mentioned information on the positions of Donald Trump's natal and progressed SUN, URANUS and SATURN would be sufficient to infer that he has full GOD-given AUTHORITY to claim the U.S. Presidency, and that by just **standing** on his feet without saying or doing anything special he

serves as a transmitter for the URANIAN Forces of CONTINUITY and CHANGE to manifest and shape the reality of the final November vote. As these Forces are active in everybody to a less or greater extent, his surging popularity is a matter of CAUSE and EFFECT, for the Forces are Intelligent, they do not act blindly, and they always accomplish GOD'S WILL and end up annihilating their earthly counterparts which I define and explain in my book as Terrestrial Forces originating in the Earth Sphere.

Closely related to Essential Force 45 is the Root Force 6, one of the eight Root Forces that directly translate as GOD'S WILL to shape the Spheres of the Solar System and endow them with a distinct attribute. In this case 6 expresses GOD'S WILL TO BALANCE by creating the SUN Sphere, and the fact that Mr. Trump's progressed SUN is exactly conjunct his natal ASCENDANT on the degree of Force 6 **marks the peak activity of this Force.** His progressed NORTH NODE now conjunct his natal URANUS also highlights this Force. Based on this configuration, **one might conclude: "GOD is with Donald Trump", everything he does is well-balanced, whatever he does ends up well.** This is what his pattern of Essential Force signifies. Even if some of his gestures and words may cause tempests and outrage on a superficial level, deep-down these moves always serve to balance antagonistic currents and, like solar flares, foster progress and change.

Furthermore this degree (30th of Leo) is conjunct the Fixed Star REGULUS, one of the Four Royal Stars of Persia which Stephanie Brady has defined in her influential book as one that promises "SUCCESS IF REVENGE IS AVOIDED". Evidently what Mr. Trump is doing in regard to Megyn Kelly cannot be labelled as a "revenge". It is a mere – evidently disproportionate – duel that we shall analyse on another occasion. For if he were to indulge in revenge or persecution of his opponents, his success would collapse, yet he never crossed the line of what is normal "attack" during a campaign. In fact by being always the first to attack, Mr.

Trump ensured that he becomes the object of retaliation or “revenge” by his adversaries rather than being himself “revengeful” to a degree.

Presidency in Mr. Trump’s natal chart pertains to the Tenth House ruled by the Sign of Taurus (VENUS by domicile and MOON by exaltation). So we shall next look to his VENUS and MOON to determine the outcome of his Presidency bid that, so far, is so successful.

The position of Donald Trump’s natal VENUS highlights Essential Forces 24 (SATURN-MOON) UNDERSTANDING, 44 (SUN-MARS) RESISTANCE and, by countenance, 53 (VENUS-SUN) FULFILLMENT, while his progressed VENUS highlights Force 39 (MARS-MERCURY) DISCIPLINE, 51 (VENUS-JUPITER) FRUITFULNESS, and, by countenance 52 (VENUS-MARS) RENEWAL. What does this tell us about Mr. Trump?

If we look at all the Essential Forces that are either VENUS-bound or originating in the VENUS Sphere we encounter: 30 (JUPITER-VENUS) DISSEMINATION highlighted by his natal MARS, natal ASCENDANT, progressed SUN, and progressed MOON. Essential Force 53 (VENUS-MARS) FULFILLMENT strengthened by his natal MOON and SOUTH NODE and his progressed ASCENDANT. Essential Force 52 (VENUS MARS) RENEWAL strengthened by the countenance of his progressed VENUS, his progressed SOUTH NODE, the VENUS of his next Solar Return, Essential Force 22 (SATURN-VENUS) SELF-REALISATION highlighted by his natal conjunction of the two planets, Force 51 (VENUS-JUPITER) FRUITFULNESS that complements Force 30 and is highlighted by his progressed SATURN, progressed VENUS, and progressed BLACK MOON LILITH.

On the day of the National Republican Convention (18th June 2016) the transiting SUN (29th Gemini) and transiting VENUS (2nd Cancer) will be conjunct Mr.

Trump's natal SUN (23rd Gemini) and also conjunct his progressed VENUS (25th Gemini) as well as his natal Mercury (9th Cancer). The transiting SUN will occupy the degree corresponding to Essential Forces 18 (Sphere of SATURN, NECESSITY, DESTINY) and 17 (CHANGE) while the transiting VENUS will be on the degree of Essential Forces 19 and 20 (ENLIGHTENMENT and RENUNCIATION). Transiting JUPITER at 16th Virgo (Force 22 REALISATION and 34 ESCAPE) squares Mr. Trump's natal SUN and MOON. The exact same Forces are highlighted by his Solar Return. We interpret this to mean that the Force of DESTINY and CHANGE will act in the sense of "revealing" Donald Trump as the only possible Republican candidate for November's elections. As we shall later see, the SUN-VENUS aspect (Force 46, REVELATION) is the harbinger of the complementary Force 53 (FULFILLMENT) which is repeatedly highlighted in Mr. Trump's profile. Likewise the SUN-JUPITER square indicates a climax of Force 43 (POWER) which is highlighted by both his Solar Return MOON position at 7th Libra, and his progressed NEPTUNE conjunct the same degree.

On Election Day (November 8, 2016) the SUN at 20th Scorpio will be conjunct the BLACK MOON LILITH on exactly the same degree which corresponds to Essential Force 46 (REVELATION) same as above, and also to the Essential Force 14 (UNION). Transiting VENUS or TRUTH) which is highlighted by Donald's natal JUPITER on 18th Libra. Hence there is plenty of indication that Donald Trump is in an extremely good position to win the November Elections if he just allows the Essential Forces to do their work through himself. And this is what he seems to have been doing since the start of the Campaign.

A simple addition of the numbers corresponding to the Essential Forces of his natal SUN (11+17) yields the result 118 which is the normal sequence of the Day-Month corresponding to Election Day.

Having said this, of course, a question arises in the mind of the more sceptical: will Mr. Trump be able to capitalize on his advantage, will he be able to maintain control over the circumstances and take advantage of this stellar condition or not? Well this question is wrong to begin with. The Essential Forces of Creation **do their work THROUGH US** human beings. They are not susceptible of being manipulated by our will power, although we may seem to wield them. We are more like children to whom an adult entrusts the commands of a plane that has already been set on auto-pilot. The kid enjoys the thrills of “being in charge” but, in fact, it is all pre-arranged, “and then the end is known”. Even before the first die has been cast on the Iowa caucus, the feeling that Donald Trump is “unstoppable” is already on the air. And, as we have demonstrated herein using the Science of Time and Number, it is well-justified.

This analysis can be further expanded and refined, and models drawn for specific time-intervals, months, weeks, even days between now and Election Day. But “the essential” is there already. Here is the synthesis of our observations.

Beyond appearances shaped by superficial clichés and perceptions, Donald Trump is not one of America’s “filthy rich” who “have money and nothing else”. His Essential Profile reveals him to be an individual of a high degree of Being who has a GOD-given Mission of prime magnitude. Not everyone who manages to run a nation, even the world’s most prominent nation nowadays has a Mission in this sense. Since times immemorial there have been rightful rulers and usurpers who took advantage of circumstances to impose a fallacious and prejudicial “legitimacy” built on fraud, and, deep-rooted in what we have defined and explained as the “Terrestrial Forces” of Magic, Sacrifice and Trance. So not every ruler on the Earth today is “legitimate” in the true sense, there have always been instances of overt or occult **usurpation of power** by the underserving.

By looking at his Essential Profile, we can clearly see that Donald Trump is a rightful contender to the White House. Regardless of his “outsider” status in respect of the Washington oligarchy aka “Establishment”, he stands out as “the solution”.

If we look at the Fixed Stars highlighted in Mr. Trump’s chart, we encounter quite a series traditionally viewed as “upsetting” or “negative” but all of which, on a deeper level of interpretation, yield healing connotations. His progressed VENUS, so important for his Presidency bid, is conjunct his native CHIRON (the “healer” *par excellence*) and its countenance is that of Essential Force 52 (RENEWAL). So his Mission is to heal America’s wounds and renew its Destiny as the world’s leading nation.

Old Jewish ladies of respectable ascendancy among Holocaust victims are of course free to compare Mr. Trump to the executioner of those relatives of theirs who earned worldwide fame and respect as martyrs at the hands of Hitler, one who, through his actions, evidently defied GOD’S Law and Order. But the distance between radical statements and actions is huge, and circumstances today in America are way different from what they were in Germany back in 1933. It is more than evident from Donald Trump’s Essential Profile of which we have barely analysed the most salient points that his chief concern to which he is naturally inclined is protecting, healing and renewing America, not persecuting minorities (moslems, women, LGBT people, and so forth).

And finally if one looks at the Birth Chart of the United States (the Event Chart of Independence Day – 4th of July 1776) which we enclose herewith, one can immediately see, even without being an Astrology expert, 14 conjunctions that mark the overlay between Donald Trump’s destiny and that of his Nation.

We enumerate them here for conformity:

His natal SUN at 23rd Gemini conjunct US natal MARS at 22nd Gemini (his natal MOON opposes the same). His natal MERCURY at 9th Cancer conjunct US natal VENUS (4th Cancer), JUPITER (6th Cancer) and SUN (14th Cancer). His natal SATURN at 24th Cancer and VENUS at 26th Cancer conjunct US natal MERCURY retrograde at 25th Cancer, and PART OF FORTUNE at 27th Cancer. His natal PLUTO (11th Leo) conjunct US natal NORTH NODE at 8th Leo. Next comes his natal NEPTUNE (6th Libra) conjunct US natal MIDHEAVEN (2nd Libra), his natal CHIRON (15th Libra) and JUPITER retrograde (18th Libra) conjunct US natal SATURN at 15th Libra. Finally his natal PART OF FORTUNE (29th Aquarius) conjunct US natal MOON (28th Aquarius).

If we look further at the Essential Forces highlighted by the conjunct points in the US natal chart, the result is most significant:

US SUN: 21 (KNOWLEDGE), 32 (GOVERNANCE), countenance 43 (POWER) all are present in Donald Trump's Profile;

US URANUS: 14 (UNION), 69 (COMPENSATION), countenance 65 (REWARD) – first and last are present in Donald Trump's profile;

US SATURN: 39 (DISCIPLINE), 51 (FRUITFULNESS), countenance 20 (RENUNCIATION) - all are present in Donald Trump's Profile;

US JUPITER: 20 (RENUNCIATION), 24 (UNDERSTANDING), countenance 29 (FREEDOM);

US MARS: 17 (CHANGE), 10 (CONTINUITY), countenance 33 (SECURITY) – the first two are present in Donald Trump's Profile:

US VENUS: 19 (ENLIGHTENMENT)), 22 (REALISATION), countenance 51 (FRUITFULNESS) – all are present in Donald Trump's Profile.

US MERCURY (retrograde): 23 (ORGANISATION), 43 (POWER), countenance 60 (CONTROL) – all are present in Donald Trump's Profile.

US MOON: 66 (CONFORMITY), 40 (DESTRUCTION), countenance 71 (REPULSION) – Force 40 is present in Donald Trump's Profile.

So there is overwhelming evidence that Donald Trump's Destiny is inextricably and strongly linked to the Destiny of his Country which makes it quite probable that he should become its next President and manage the fulfilment of its Destiny in the world over the next 4 to 8 years.

Let it be said that, as Donald Trump will soon enter the 70th year of his life, precisely on 30th March 2016, the SOUTH NODE of his Solar Return for the Election year is positioned at 17th Pisces, the degree which corresponds to Essential Forces 70 (FRUITION) and 59 (SUCCESS) which is highlighted by his natal PLUTO. So, once again, in the crucial year of the Presidential Elections, he is clearly set to win, just as his NORTH NODE in the same Return conjunct JUPITER highlights the Forces 34 (ESCAPE) and 23 (ORGANISATION) both situated on the Left Side of “Severity” or Form. ESCAPE is the result of RENUNCIATION, Donald Trump will have to make some sacrifices of a temporary nature in order to “escape” into the Sphere of SATURN and fulfill his Destiny. These “sacrifices” generally relate to the pleasures of life.

In conclusion, if Donald Trump seriously tackles the race for Presidency with ABNEGATION (Force 41) which in turn triggers SALVATION (Force 13 repeatedly highlighted by his Solar Return SUN and MERCURY) there simply is no Power on Earth that can deter him from becoming the 45th US President. This is what his fellow-Republicans have felt, and have plainly conveyed in their statements, without stating the core reason why this is so.

Were he to compete with Hillary Clinton, the SUN – MOON scenario that he has already set in place throughout his ongoing conflict with TV anchor Megyn Kelly would be revamped onto a new magnitude. However as 45 is numerically linked to the SUN, and the Great Solar Eclipse on 30th Pisces has already taken place last year, it is **IMPOSSIBLE** for a woman – not just Mrs. Clinton but **any woman**, “period” – to become the 45th President of the United States. Overall, a woman resonates with either 72 (the MOON Sphere) or 27 (the BLACK MOON LILITH) but never with 45. Hence no “Solar Queen” has ever been in existence – not even in fairy tales.

That does not mean, however, that Donald Trump's race will not be fraught with ambushes, perils of all sorts, and other challenges. The Fixed Star ALHENA on his natal MERCURY is that of the "wounded hero", the one who comes from Heaven entrusted with a High Mission yet gets hurt in the process as he contacts the base matter of the EARTH Sphere. So no one, Mr. Trump less than anyone, should expect a smooth ride. Nevertheless, if he steers his course, as he most likely will, he will emerge unscathed. **He seems to know in his heart of hearts that he will win, no matter what his adversaries may plot or accomplish. And this KNOWLEDGE (21) is essential for his SUCCESS (59).**

Everybody has noticed the Essential Difference between Donald Trump and the other candidates, his "original", "nonconformistic" approach to the Elections race. But unlike other billionaire candidates like Ross Perot was in the past, "there's matter in his madness". In fact he is not "mad" at all. And that is because he moves on a **chain of causation** that is superior to that of his opponents. One cannot "**employ**" or "**use**" the Essential Forces of GOD'S Creation. Simply because these Forces are the ones that create our reality and ourselves. They are to be treated with utmost reverence. It is for this very reason that Jewish sages went to the extreme of attributing to them the status of divine **beings** endowed with names extracted from the Book of Exodus 14, 19-21, and with distinct personality traits or "faces". That this is an error perpetuated by tradition is evident to whomever reads what the Sacred Text says. It clearly reads: "The Angel of GOD – *ma'lach Elohim*" – NOT the "**Angels** of GOD".

We humans have been endowed by our MAKER with Free Will regardless, and we can employ it to withstand, inhibit or block the action of GOD's Forces, in ourselves as well as others who are unawares of their workings. Judging by how Mr. Trump steers his course, he is one who **knows** how to act so as not to impede the action of GOD's Essential Forces from shaping his Destiny and his Nation's.
