

## **GREEN IS THE FUTURE, by Zach Thomas**

**1. Puerto Rico gave her her name,  
Her Grandpa died in a hurricane.  
Now we've never seen a  
More fearless Latina  
Determined to fight climate change.**

**2. Are green jobs key to success?  
Do we need more healthcare, not less?  
Who steps up this hour  
To speak truth to power?  
Alexandria Ocasio-Cortez!**

### **CHORUS**

**Olé (OLÉ)! Olé! (clap-clap). El futuro será verde.  
Olé (OLÉ)! Olé! (clap-clap). Green is the future we say!**

**3. The youngest elected so far.  
She worked in a cocktail bar;  
Served piña coladas,  
And now voters got a  
New leader who shines like a star.**

**4. She fights to set students free,  
From debt that shackles their dreams.  
Inspires the young  
To grow up and become  
The persons that they want to be.**
