CURRENT PROJECT

400: AN AFRIKAN EPIC

Dr. Lomax ambitiously seeks to tell the story of Afrika and its diaspora over the course of a 12 album cycle to be released in 2019. **400: An Afrikan Epic** is divided into thirds where Lomax explores thousands of years of the history that was pre-colonial **Afrika**, the **Ma'afa** (the 400 years between 1619 and 2019), and **Afro-futurism** expressing a vision of what Afrika and her descendants could become in the next 400 years as a healthy, high functioning, and united members of the world. By telling this epic narrative, Lomax looks to celebrate the resilience, brilliance, strength, genius, and creativity of a people who continue to endure the Ma'afa, the greatest evil humanity has ever experienced.
