

Where do we go from here?

Where do
we go
go from
go from here?
I'll walk
till I'm tired
and after,
after that I'll run
So you
found another
He's gonna take you away from me
I'm lost
and searching,
still I'll
find my way from here

I'll watch
the sunrise,
till it
burns my eyes
I've hit
the bottom
but still I'm,
I'm on top of the world
Where do
we go,
go from,
go from here

Go away to another place
Find a way to be the same
Wrap a bow around it and say
It's almost new now but it decays
