

I've Seen the Grass

I've seen the grass
on the other side
And its just as dead
as whats under us
I was the one who was saying never
I'm never gonna say it again
Right now is forever
and its never gonna happen again

Time flies on crooked wings
wings
So hold on to the wind
Cause its all we got
You're too used to easy sailing
Someday you have to leave the boat
That's the only way to know
If you're gonna sink or float

And local bands are your thing girl
I'm not your man but i'll change the world
Its a brand new edition
A fools partition
To our one night stand

Dreams with hidden meanings
reality
is just a figment of my imagination
if you don't know the truth
you're only lying to yourself
You don't need a definition
if you want to be honest
