

# Freedom Reign

## Verse 1

World's on fire people dying lost their way  
What more can I say  
Sometimes I feel the pain of the world deep within  
We live we die we hold the sky within our hearts when we cry  
For the ones who suffer I throw my hands up in the sky...

Then I felt the the rain fallin' on me...

## Chorus

In my mind I can feel the rain  
Let it wash away the pain  
Let freedom reign  
Let freedom rain  
Let freedom reign

Rain, reign....

## Verse 2

She is strong the earth she lives from Africa our mother is  
Through fire and fear blood and tears still you'll find  
That she is so kind  
Like Buddha's song she makes us strong  
And guides us there throughout the years  
Dried and cracked from people's hate  
She looks up at the sky with her face....

## Chorus 2

In my mind I can feel the rain  
Let it wash away the pain  
Let freedom reign  
Let freedom rain  
Let freedom reign

## Breakdown (Verse 3)

See a baby's born someone has died its all inside  
So free your mind  
Speak the wise heal the blind love yourself love everyone else  
Though the scars we'll paint the stars  
In people's hands in people's hearts  
Gotta live for change let freedom rain  
Live for change let Freedom Reign.....
